

# Yealink W60P

## SIP-based cordless phone

### High-performance DECT IP phone with user-centric design

The Yealink W60P cordless phone solution is ideal for users who need in-office mobility. Simply carry the handset with you, and you won't miss any calls.

The W60P utilizes industry standard DECT cordless technology for secure communications, and the handsets offer exceptional HD sound quality. Up to four handsets can be provisioned per base station and can make/receive call simultaneously.

Handsets come with a bright 2.4" color display that offers an intuitive user interface. Talk times of up to 30 hours are possible, and the handset can be in standby mode for up to 400 hours before batteries need to be recharged with the provided charging dock.

The W60P is desktop or wall mountable for ultimate flexibility and can be powered via power over Ethernet (PoE) or the included AC adapter.

Mayflower is a leading provider of business cloud communications and contact center solutions based on its powerful Mayfone platform. More flexible and cost effective than the legacy on-premises PBX and video conferencing systems that it replaces, Mayfone empowers modern mobile and distributed workforces to communicate, collaborate, and connect via any mode, any device, and any location. Mayflower offers three key products in its portfolio including Mayfone, a unified communications as a service (UCaaS) platform including team messaging, video meetings, and a cloud phone system; Mayfone Video, the company's video meetings solution with team messaging that enables Smart Video Meetings; and Mayfone cloud Contact Center solutions. Mayflower's open platform integrates with leading third-party business applications and enables customers to easily customise business workflows.
